

Provider Enrollment Webinar, January 29, 2019, 2:00 PM CST

Provider Enrollment is a time-sensitive and time-intensive process that health care providers must deal with regularly.

What is the cost to your hospital if your practitioners are not properly enrolled with all the right health plans?

AHA Services is pleased to invite you to participate in a webinar introducing our partnership with Hospital Services Corporation (HSC) for provider enrollment services.

HSC offers a fully automated system and highly trained staff to gather current and accurate information on employed and direct contract practitioners from primary sources quickly and efficiently. Focused on efficiency, accuracy, completeness and quality, the HSC model provides a number of services that can be bundled or offered as “Optional” services:

Provider Enrollment

- Enrollment of employed and direct contract practitioners with contracted health plans.
- Re-Enrollment Process
- Management of CAQH Accounts and Attestations
- Track Status and Approval Dates for Each Application

Registration:

Name: _____

Title: _____

Organization: _____

Email: _____

Phone: _____
